เรื่อง Plants

ครูอัญชลี สุวรรณบุตร

Plants

Objectives

☐ Pronounce the words correctly
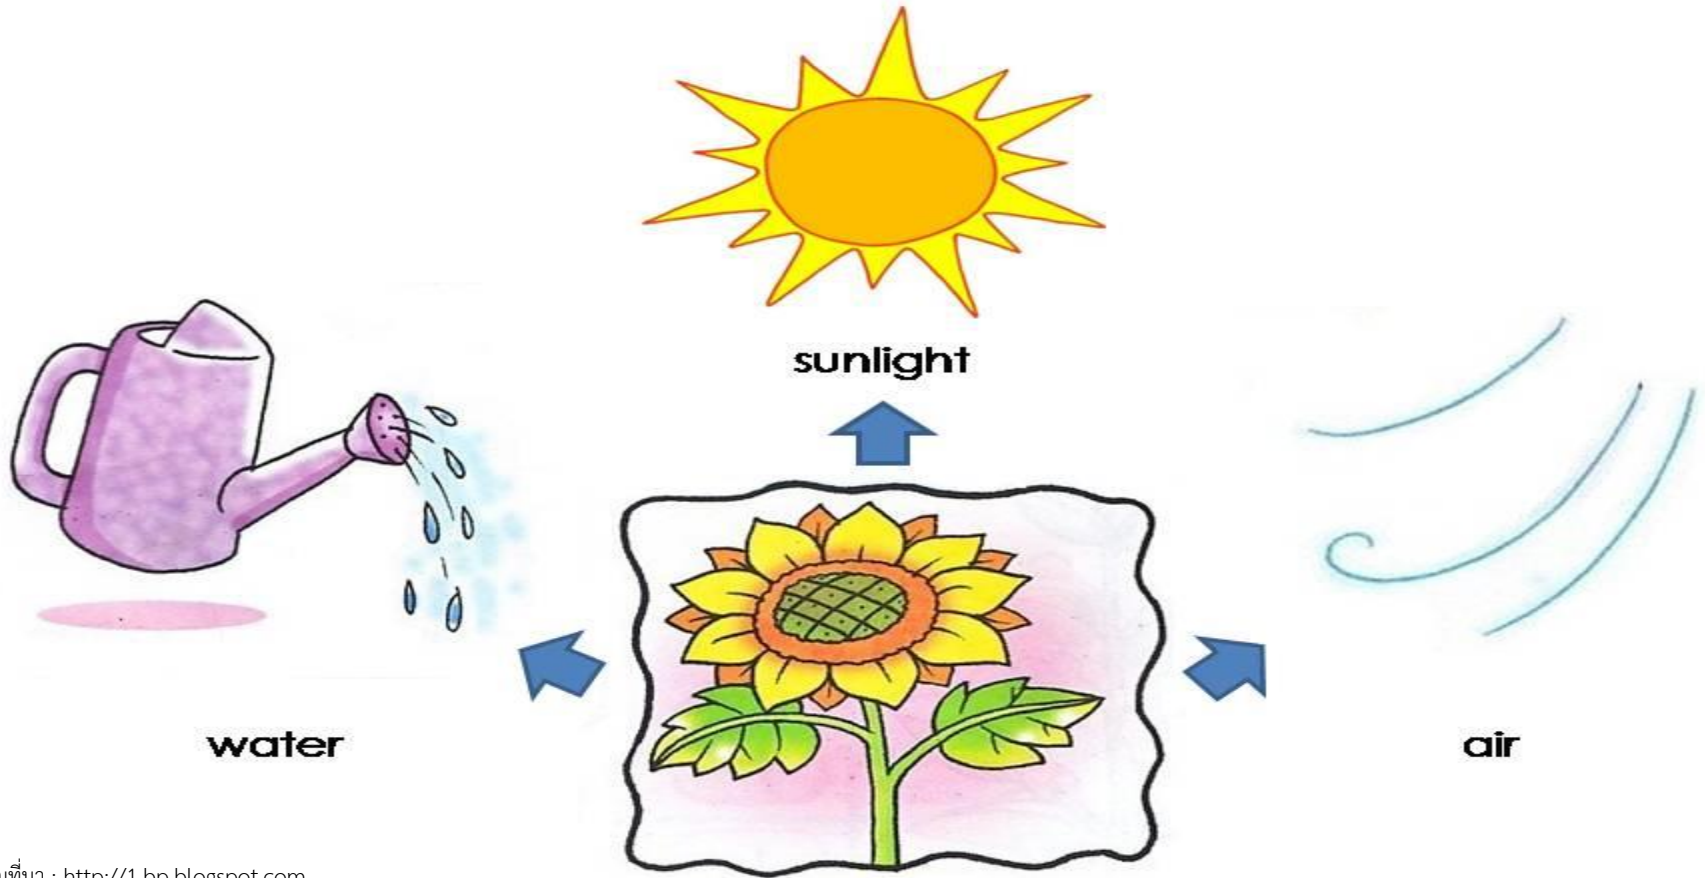

☐ Parts of Plants

☐ Things plants need to grow

What things do plants

need to grow?
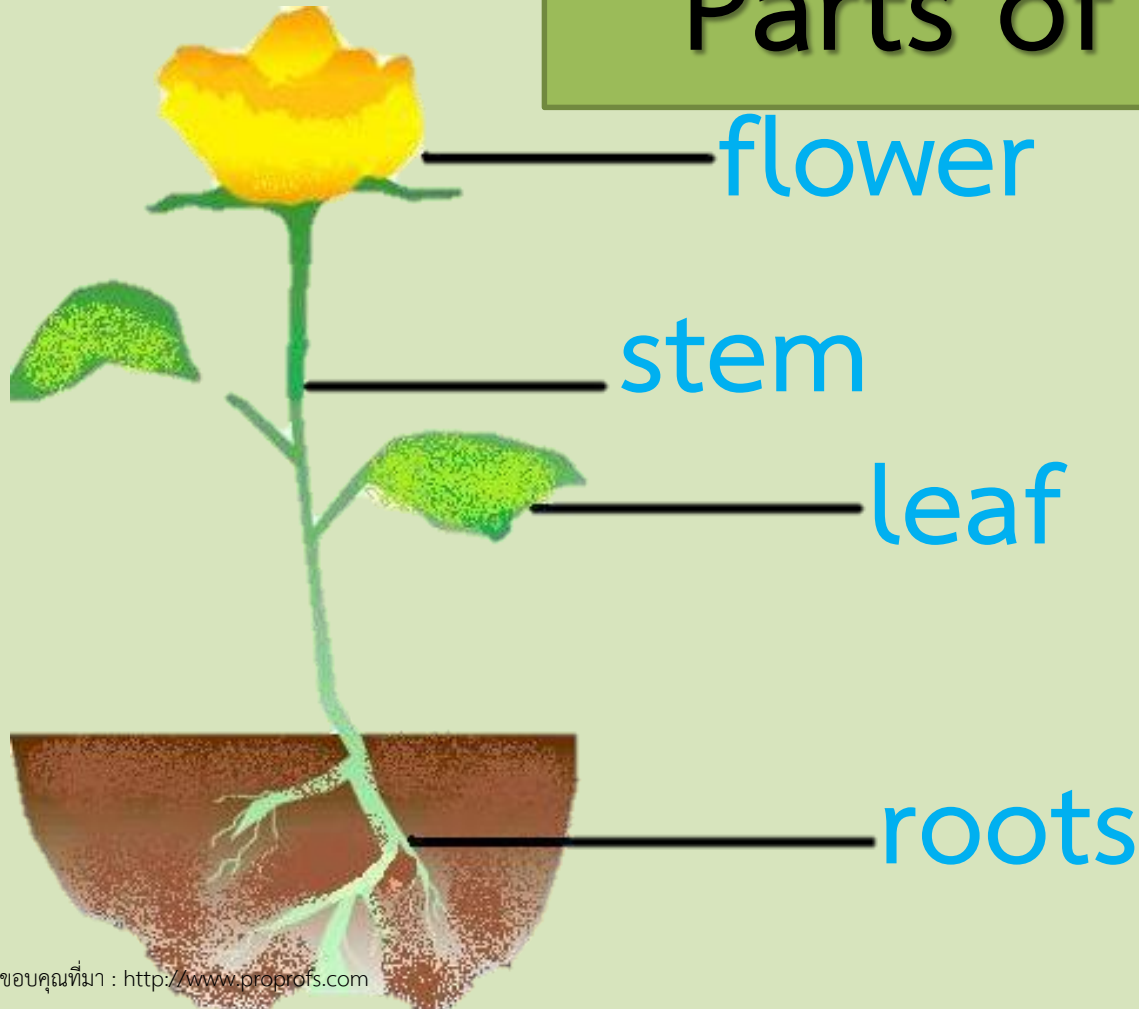

Basic Needs Of Plants

sunlight

water

air

Parts of Plants

flower

stem

leaf

roots

Activity

<u>Instructions</u>: Work in group, complete the story.

Read it !

"The Lucky Seed"

A long time ago, a farmer took a big bag of seeds to sell at the market.
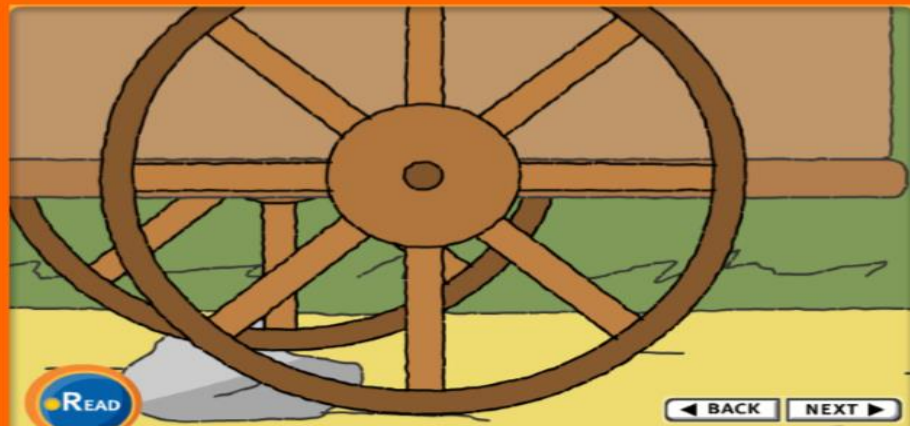

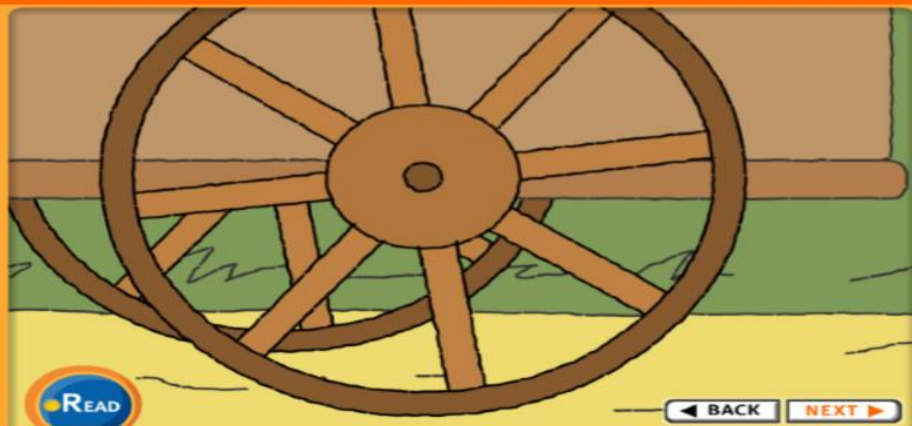

Today if you visit the countryside, you can see the tree.

It is big and strong and now makes seeds of its own.

Many years of sunshine and rain passed.

The seed became a plant and then the plant became a tree.

Suddenly, his cart's wheel hit a big stone. Bump! One of the seeds fell out of the bag and onto the hot, dry ground. (suddenly = ทันทีทันใด)

"I'm scared!" said the seed. "I need to be safe under the soil." Just then a buffalo walked on the seed and pushed it into the ground.

That evening a hungry bird tried to eat it. But the seed had roots   to

help it stay in the ground.

The next day it had its first leaf. This helped it to catch sunlight and grow.

"I'm thirsty!" said the seed. "I need some water to help me grow." Just then. it started to rain. (thirsty = กระหาย. started = เริ่ม)

The next morning the seed had a little green shoot. All day it sat in the sun and grew taller and taller. (grew taller = สูงขึ้น)
